**Call for CDM and JI projects**

## TFS call for CDM and JI projects

TFS is a leading energy broker in Europe, covering power, gas, coal, weather and oil markets since 1985 and renewable energy and emission markets since 2001, including projects generating credits under the Clean Development Mechanism (CDM) and Joint Implementation (JI).

If you have a CDM or JI project in development – from concept, PIN, financing, PDD or registration – TFS can help match you to clients who are looking for credits and investment opportunities in the emissions markets. With our years of expertise in the energy markets and specialists on the CDM and JI mechanisms across the globe, TFS can help you structure contracts to maximize the value of your project.

For more information, please contact  
the HQ for TFS emissions desk:

1st floor, 51-55 Gresham St.  
London, EC2V 7HQ
